Properties

Length	400cm
Max. lifting capacity	900kg

Description

ID number: 74947 MECHANICAL Jib/ Arm BRAND: Genie/ Terex MODEL: 4M/900KG YEAR OF CONSTRUCTION: 2010 WEIGHT: 270KG CONDITION: Used Jibs, winches and fixed hooks easily transform a Genie® telehandler into a small crane for greater flexibility and efficiency, being essential on a construction site for moving and positioning a load in high places. If the hydraulic quick coupling is added, these accessories can be mounted easily and quickly.
